

PLOVILO LETA

Slovenian Awards for the Boat of the Year 2019

The editorial board of the first Slovenian nautical magazine Val navtika has again, for the fifteenth time in a row, chosen a boats, which, according to the editorial board, deserves a special attention. Although we are a part of the global boating industry, we have nevertheless chosen Slovenian boats as well (a motor boat and rib), which are the result of Slovenian knowledge and made in Slovenia. The nominated boats in each individual categories belong to the model year 2019, although we have seen most of them at boat shows and events in the past year. Most of the boats were tested in the spring and autumn, which is another reason for assessing and selecting the best, most innovative and most daring ideas. It should be noted that the selection is many times difficult to make, small details and solutions are decisive and contribute significantly to navigation, handling or on-board comfort. Each new boat would, indeed, earn an appropriate reward or recognition, because a lot of effort and resources have been invested and they are in no way losers; a sort of recognition itself is that they have found themselves among the nominees.

Yacht of the Year 2019

1st category Sailing yachts up to 10 meters

Nominees:

Jeanneau Sun Odyssey 319

Beneteau First 27

Dufour 310 Grand Large
